

KANSAS CITY METRO ASSOCIATION OF PERMIT TECHNICIANS

2018 FALL TRAINING SESSION (All Day)

International Existing Building Code

This seminar encourages the use and reuse of existing buildings, while requiring reasonable upgrades and improvements. These upgrades and improvements, where applicable, are life-safety related and include the upgrading of fire protection systems, partial or complete enclosing of vertical openings, replacement of unsafe interior finishing, providing adequate means of egress, and improving accessibility to the structural system. It is important to note that the necessity of the upgrades and improvements is determined by the type and extent of the work, not the expense.

There will be a Question & Answer session commencing after the class during the afternoon session.

ICC CEU's 0.6

Contact Hours 6

Instructor:

Eirene Knott has over 25 years of experience in the code industry. Eirene has served most of those years in the public sector as a permit technician, inspector, plans examiner and building official. She currently serves as the Director of Code Services for BRR Architecture. Along with her Masters of Science in Management from Baker University and Bachelors in Construction Science Management from Kansas State University, Eirene holds over twenty five ICC Certifications, including certification as a Master Code Professional, Certified Building Official and Certified Fire Marshal. In addition to her ICC Certifications, she also holds a Premier Certificate as a firestop inspector through the International Firestop Council. Eirene is also a certified Fire Service Instructor and has taught at the National Fire Academy. Eirene currently serves on the ICC CBO/CFM Exam Development Committee and as a member of the IBC General Code Development Committee. Eirene has served as President for two local ICC Chapters as well as one national ICC Chapter.
