

GREAT NEWS! At their recent Board of Directors meeting held in Casper, WY the ICC Board approved the motion made by Board of Director, Jay Elbetta, from Mission Viejo, California to approve the PermitTechNation's application for membership as a Professional Chapter with International Code Council. The staff had made a recommendation and Board of Director, Jim Brown, from Gillette, Wyoming seconded the motion. It passed unanimously.

The item was placed on the agenda as Item R13 following a motion to move it from the consent agenda.

Special thanks to the Board of Directors and ICC staff for their dedication towards raising the profile of Permit Technicians across the country.
