

Proclamation

Building Safety Month — May 2022

Whereas, our organization, Kansas City Metropolitan Association of Permit Technicians (KCMAPT), is committed to recognizing that growth and strength depends on the safety and essential role our homes, buildings and infrastructure play, in everyday life and when disasters strike, and;

Whereas, our confidence in the resilience of these buildings is achieved through the devotion of vigilant guardians—building safety and fire prevention officials, architects, engineers, builders, tradespeople, design professionals, laborers, plumbers and others in the construction industry, and;

Whereas, these guardians are dedicated members of the International Code Council, a nonprofit that brings together local, state, territorial, tribal and federal officials who are experts in the built environment to create and implement the highest-quality codes to protect us where we live, learn, work, and play, and;

Whereas, Building Safety Month is sponsored by the International Code Council to remind the public about the critical role local code officials perform to assure us of safe, sustainable, and affordable buildings that are essential to prosperity, and

Whereas, “Safety for All: Building Codes in Action,” the theme for Building Safety Month 2022, encourages us all to raise awareness about planning for safe and sustainable construction; understanding disaster mitigation, energy conservation; and creating a safe water, and;

Whereas, each year, in observance of Building Safety Month, people all over the world are asked to acknowledge the essential service provided to all of us by local and state building departments, fire prevention bureaus and federal agencies in protecting lives and property.

NOW, THEREFORE, I, Maggie Glynn, President of Kansas City Metropolitan Association of Permit Technicians, do hereby proclaim the month of May 2022 as Building Safety Month and encourage our citizens to join us as we participate in Building Safety Month activities.

Maggie M Glynn
